# 01 ABOUT US AND OUR TECHNOLOGY

# WE ARE A LEADING FOOD TECH COMPANY IN INDONESIA

1. Own manufacturing plant of 2 Ha in Kuningan, West Java, with a production capacity of over 10,000 pax per day.
2. Have patent for Fluidized Bed Drying and Retort Sterilization.
3. Rigorous standards for food control and processing that has been awarded and certified.
4. Special R&D facility for exploring new food cuisines with skilled experts and chefs.

# OUR SPECIALIZATION AND EXPERTISE

Product development based on customer brief and requirement.

Complete value chain capability from R&D to Delivery anywhere in the world.

Powered by and access to Ralali - Indonesia's largest B2B ecosystem.

Adaptable and customizable production line that is scalable.

Value additional services - Branding, GTM, Licensing and Financial support

# Ralali.com

## OUR VISION

To become the leading food technologist in Indonesia that brings **healthy** and **nutritious** food solutions that have **long** shelf life, **retain** taste and **quality** and can be prepared and served **easily** anywhere.

# OUR PATENT TECHNOLOGY

ENERGY-EFFICIENT & ENVIRONMENTALLY SUSTAINABLE  
THROUGH PARTNERSHIP WITH IPB UNIVERSITY

**IPB University**  
— Bogor Indonesia —

## FLUIDIZED BED DRYER

Utilized for large-scale preservation of dried rice and vegetables while minimizing waste without chemical additives.

## RETORT STERILIZATION

A gas cylinder-based pressure cooker for cost-effective production, used for sterilizing a variety of food products, such as rice, beans, fish, and meats.

# CURRENT PRODUCT DERIVED FROM OUR TECHNOLOGIES

## 1 INSTANT RICE

*Get Fluffy, Delicious Rice in Minutes*

**Low Glycemic Index:** Our instant rice has a low Glycemic Index, stabilizing blood sugar levels, tested at IPB University's lab.

**Long Shelf-life:** Shelf-stable 18 months in room temperature.

**Convenient, quick and easy to prepare:** Pre-cooked and dehydrated, served by adding hot water or microwave and let it sit for a few minutes.

**Variety:** We can create a wide range of instant rice flavors, including fragrant options like nasi liwet, nasi kecombrang, nasi hijau pandan, nasi kuning, and more, along with the ever-popular nasi goreng.

# CURRENT PRODUCT DERIVED FROM OUR TECHNOLOGIES

## 2 READY TO EAT DISHES

*Enjoy Convenient, Affordable, Nutritious And Delicious Dishes - Anytime, Anywhere*

**Long Shelf Life:** Shelf-stable 12 months in room temperature.

**No Preservatives:** Created with care by professional chefs and entirely free from preservatives for a wholesome, flavorful experience.

**Convenient:** No reheating required. Just open the package and enjoy!

**Pre-portioned:** Pre-portioned servings at 70gr, 140gr and 250gr to help manage food intake while reducing food waste.

# TYPES OF FOOD PRODUCTS WE CAN PRODUCE

# 02 HOW YOU CAN COLLABORATE WITH US

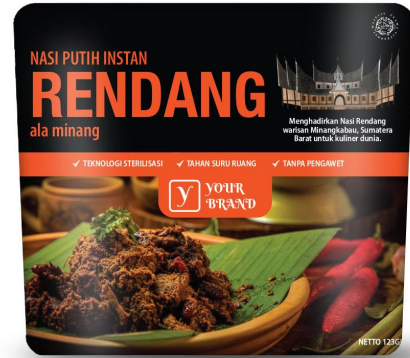

# 3 EASY WAYS TO COLLABORATE WITH US

**CREATE SOMETHING  
NEW WITH OUR  
ON DEMAND  
PRODUCTION LINE**

**BRAND YOUR OWN  
PRODUCTS WITH  
OUR WHITE LABEL  
PRODUCTS**

**PARTNER WITH US TO  
CO-CREATE PRODUCTS  
FOR SPECIFIC DEMAND  
AND DISTRIBUTION**

# 1 ON DEMAND PRODUCTION LINE

- If you have an idea we can make it a reality. Talk to our R&D to synthesize the product and test it.
- We can mass produce the product, including packaging, storing and delivering to destination of your choice.
- We can also support to get the right licences, GTM (Go To Market) strategies and distribution.
- We also have partners with export licences to help you export to other countries from Indonesia.

## 2 WHITE LABEL PRODUCTS

- ✓ We already have a series of products that have been tested and marked successfully.
- ✓ You can pick and choose the combination of products from our Product Menu and we can customize the packaging as per your requirements.
- ✓ We can also help to create the right brand/logo materials based on your requirements.
- ✓ These products can be customized according to their weight, quantity and type that you need.

### 3 CO-CREATED PRODUCTS

- ✓ We have partnered with some of the leading brands in Indonesia to develop products for their internal usage.
- ✓ These products carry both our retail brand name (Kokikit) and also the partner logo.
- ✓ We are open to explore, develop and market new co-created products with you.
- ✓ We have the right partners for GTM, distribution and logistics for support.
